These pleasant days are having a reviving effect on business.

BUSINESS seems lively. All are making quite a display of spring goods.

PUBLIC confidence in the ground hog has been severely shaken this year.

MONDAY next, May 4, is the day set for the meeting of the creditors of Dunn & Co.

THERE is one comfort in dealing with a liar, you are not compelled to believe him.

It will not be long now before the trees will be in bloom, and then Provo will look her best.

First-class pictures call on Anderson & Madsen, Union Block. Satisfaction guaranteed.

Our job department was kept on the jump last week. We hadn't hardly time to say our prayers.

COUNCILMAN MAIBEN was a visitor to the capital yesterday. He reports business quiet in the city.

LANDSCAPE and picturesque sign painting done on reasonable terms by San Jepperson, Provo, Utah.

GEORGE HENRY, a drunk, was before Justice Noon on Tuesday morning. He was sent to jail for five days.

JOSEPH S. ADAMS and Carrie Hanon, of American Fork, procured a marriage license on Monday.

HOWE & TART are selling oranges in wholesale lots at a lower figure than the Salt Lake merchants.

The bakery down by the postoffice has made an elegant wedding cake for Salt Lake parties. How's that?

MR. GEORGE C. WHITMORE came down from Salt Lake last night and departed for Nephi this morning.

Do not borrow your neighbor's paper, when it only requires \$2.50 to pay for THE DISPATCH for the whole year.

The City Council met on Monday night, but as the weather was so cold, they adjourned for one week.

E. R. KINGLER was arrested Saturday evening for being drunk. He left \$6.00 in the city treasury for his spree.

Is anything being done to protect the property of the farmers in the Fort Field against damage from Provo river?

Our city presents a handsome appearance at present. The trees are blooming forth and the grass is freshly green.

The Chamber of Commerce was unsuccessful in obtaining a quorum on Saturday night last and had to adjourn.

The Union Pacific is relaying their road bed, with new steel rails, between Provo and Salt Lake, and making an excellent track.

The fixtures of the old Ogden post-office on Washington avenue, have been sold to Payson, Utah county, for use at that place.

It is a positive fact that J. R. Boshard is selling more pounds of granulated sugar for the dollar than any other store in town.

The Steam Laundry is still enjoying the privilege of emptying their potatoes and slops into the water ditch on the west side of F street.

"HOUSE CLEANING," with all its attendant horrors, begins to haunt the masculine mind. But the ghost will not down until the carpets are there first.

The Civil Government Class of the Fourth ward will meet at the usual place to-morrow (Thursday) evening, in order of the president and instructor.

A MARRIAGE license was issued on Sunday night about ten o'clock, to J. S. Spencer and Harriett Watts, of Springville. They were married by Justice Brown.

The gravel being taken from the basement of the Central building on J street, opposite The Dispatch block, is being put to good advantage in grading that street.

FELT, OLSEN & Co. have sold out their book and stationary business, two gentlemen from Michigan being the purchasers. They will continue the business at the old stand.

BEFORE JUDGE BLACKBURN

A Dull Time Spent on Monday and Tuesday.

Donald McPherson Now on Trial for the Murder of Luther Palmer.

All the Forenoon Spent in Trying to Impanel a Jury.

Business was very dull before Judge Blackburn the early part of the week, this morning being the only time matters have assumed any kind of animation in judicial circles. On Monday there was no business and court was dismissed until Tuesday at 10 o'clock.

On Tuesday morning the case of Jacob Houtz vs. Jas. Whitehead was dismissed, as also the case of Provo East Co-op. vs. Gottlieb Klinger.

Court then adjourned until 10 o'clock this morning.

This morning the case of the People vs. Donald McPherson was called. Jno. M. Zane prosecuted and A. G. Sutherland defended. Defendant is charged with the murder of Luther Palmer at Richfield, Utah, March 15, 1891, on which he was arraigned last Tuesday and pled not guilty.

The entire forenoon was spent in impaneling a jury for this case, each side being allowed fifteen challenges. A special venire was issued for five additional jurors and court adjourned until two o'clock.

The Tribune says that C. W. Hemenway of journalistic notoriety, who, since the Gazette changed hands, has been living in Payson, has left for Ogden, his old newspaper stamping ground where he expects to again pick up the pen. Since Hemenway is nothing unless sensational, ten to one that the Junction City will be anything but hypnotized while he is again a sojourner within her gates.

In response to an invitation from the "general flesh," of Pyne & Maiben's establishment, THE DISPATCH force invaded the premises of these popular druggists, and indulged in their soda water, for compounding which "Herb" has such a wide reputation. Since the advent of their new generator, Pyne & Maiben put up the best soda water in the market. If it is a nice cooling drink you want we would say, step into Pyne & Maiben's.

A shadow social is the latest. A sheet is stretched across the room which separates the ladies from the gentlemen, the portion occupied by the gentlemen being darkened. One girl at a time is placed so her shadow will fall upon the sheet and the shadow is auctioned off to the gentlemen, and the highest bidder takes the shadow, or the lady that makes the shadow, to supper. It is a jolly enjoyment, full of many surprises.

The case of Hamilton Gregg, for complicity in the "gold brick" swindle, was before Justice Brown Tuesday morning. No evidence was produced, and Mr. King, attorney for the prosecution, asked that the case be dismissed, which was done, and the prisoner turned over to Marshal Bachman, who took him to Salt Lake on the afternoon train to answer to the charge of assault with intent to kill. A. G. Sutherland is his attorney.

"TRY to avoid newspaper quarrels," says a noted editor. Right he is. Nothing in all this irritating old world will make the other man lose his head so completely and get him so howling mad as for you to keep perfectly quiet just when he is getting the better of you, and look at him when you meet him on the street with an exasperated and hostile countenance, and say, "But you must look out that he doesn't brain you with a stuffed club."

MARSHAL BROWN and Officer Hill, in response to a telegram, went to Thistle on Sunday to look after a man who was reported to be flourishing a knife and chasing men around the place, threatening their lives. When the officers arrived they found that the man had fled to the hills. The officers followed and succeeded in capturing him, and brought him to Provo on Sunday night. He was before Justice Brown on Monday and pled guilty to the charge of disturbing the peace. The judge gave him twenty days' hard labor.

The musical festival has been postponed from May 9 to May 16, on account of President Harrison's visit to Salt Lake, which will be on the former date. But the festival will be the more sure of being a success as the choruses will then have more time to get ready. Prof. Giles has paid visits to Pleasant Grove, Payson, Springville and Provo, and finds every one enthusiastic over the event. He says the different choirs are working like beavers. Arrangements have been completed for nearly 100 electric lights to be placed in the Tabernacle, to be in readiness May 16.

Every Monday's Tribune contains from four to five columns of reports of sermons delivered in Salt Lake City the day previous by the ministers of the various denominations. On the local page of the same issue is placed the Tabernacle services of the Mormon Church. This latter report is always written in an attempt-to-be-funny style, ridiculing the speakers, making light of the prayer, the administering of the Sacrament, or some other feature of the services. Any decent person, who is not totally depraved, is disgusted with this feature of the Tribune. In any other community such a thing would not be tolerated.

There is a gang of worthless boys in all towns whose only ambition is to become street loafers and get their living without work. These boys are not satisfied with being loafers and leeches and parasites on society, but they seek to drag others down to their own level. They will not attend school and obtain an education, and are ever ready to prevent others from attending; they will not learn a trade and do not want others to. Like the thing but eat and sleep; they are a disgrace to their parents and the community in which they reside and in a few years they are sent to the penitentiary.

The establishment of Dunn & Co. has now opened up, and the assignee, Mr. Ed. L. Jones, announces that they are giving help to the trade, and special inducements on certain lines.

The steamer built at the Sun Foundry was taken down to the lake today. It took skillful engineering to place it on the car and unload it at the lake but Col. Moore was equal to the occasion.

All parties having accounts against Dunn & Co., or holding what are known as coupon books, will present the same at once, to be audited; and all persons knowing themselves to be indebted will at once settle with the assignee.

"EVERYBODY knows how to run a newspaper." This is an axiom. But the editor knows more about it than everybody does. The one significant fact about THE DISPATCH is that it imagines it is running itself, and doing it well.

PARENTS should visit the schools. They should not be indifferent to what their children are doing in the school-room. It encourages both pupils and teachers to have the parents visit the school, and shows an interest in the school work.

The funeral services over the remains of Edith, infant daughter of Oscar W. and Annie Fygar, of this city, were held in the Second ward meetinghouse on Tuesday afternoon. The child died on Monday morning of membranous croup.

The children of the First Ward Sunday school go to Graves' Park on Friday, May 1st. The use of the grounds and pavilion has been tendered them by the proprietors, Sutton & Graves, who will also furnish the music for the children free of charge.

The time for holding the Utah Stake Conference has been changed from May 31 and June 1, to May 30 and 31. This is done in order to give people an opportunity of attending the annual conference of the Y. P. M. I. A. in Salt Lake Tabernacle June 1 and 2.

The firemen were out in full uniform last night, and made a good showing in the drill. It only took a big time to be arranged for an excursion train will be run to Salt Lake from all parts.

For occasion of the May Festival at Provo, May 18th, the Rio Grande Western Ry. will issue tickets from all points in Utah County to Provo and return at rate of one fare for the round trip; tickets to issue May 15th and 16th, good returning up to and including May 17th.

The meanest woman on earth has been located at Hiawatha, Kansas. She hired a poor woman to wash for her at fifteen cents an hour and while the poor creature was at work turned the clock back an hour and a half. You can wager too, that that woman expects to get to heaven.

ANDERSON the photographer has taken in Mr. Jos. Madsen as a partner. The public will remember that Mr. Madsen has been in the business five years and is one of the oldest and most experienced photographers in the Territory. He is acknowledged to be one of the best retouchers in the country.

A LADY went into one of our grocery stores the other day and asked to look at some finger bowls. Judge of her horror when the clerk (a boy who had evidently never heard of such things) handed out one white and one yellow piece of queensware about eight inches across the top, with a small handle on one side.

Provo ought to get wealthy and even boom when she can boast of fifteen to twenty saloons, each paying an annual license of \$1,200. The saloon men now pay for the privilege of keeping open doors all night. Twenty thousand dollars paid yearly ought to fetch some favors.—Brigham City Bugler.

The Salt Lake City Stock Exchange Journal says: "It is believed that there are some excellent mineral deposits in Provo canyon. Old timers there tell of the finding of ore bodies years ago that have been covered up and left undisturbed. They should be reopened and worked now that the times are propitious."

The price of hay in Colorado has gone up so much that Utah shippers are sending large quantities to Denver and other points. Last week a train load of thirteen cars was shipped from Roy, and a carload of hay was shipped to Denver parties. This is the second train load this month shipped by and to the same parties.

There is a splendid cake in the display window of Brown's bakery on Centre street. The cake is the work of William Hill, and certainly reflects credit on him as an ornamental cake artist. Mr. Hill took the premium at the Territorial Fair for an ornamental cake, although there were men from Chicago competing for the prize.

G. P. Thompson, late agent of the Union Pacific company at this place, has been appointed agent of the R. G. W. at Springville, Utah. He left for that place Sunday afternoon. His family will still remain in Brigham. George has been a good citizen and a gentleman, in every sense of the word. We hate to see him leave.—Brigham City Herald.

Now that the weather is settled, the people may look to see matters assume a more prosperous aspect in general than has been the case for some time past. Building operations are being resumed in a lively manner, and the mechanic and the laborer, who have been awaiting the advent of fine weather so patiently, are now helping to make the glad song of industry.

"Is it true that you don't wear socks?" "Won't you let me see, please?" said a pretty woman to Jerry Simpson, the Kansas statesman, at Washington the other day, glancing curiously at the latter's feet. "No," said Simpson, gravely. "I'm a believer in reciprocity. Do you wear socks? If you'll show me yours I'll show you mine. The lady said, "Oh, my!" and fled precipitately.

THE CENTRAL BUILDING.

One of the Finest Business Blocks in Utah.

The Basement, Eighty by One Hundred Feet, Being Excavated.

Cut Red Sandstone and St. Louis Pressed Bricks for the Front and Side.

The Central building, which will be located on the corner of J and Eighth streets, is designed to be one of the finest business blocks in the territory, a structure which, when completed, will reflect credit on a metropolis. The building will have a west front of eighty feet and a north front of ninety-nine feet. The west front will be of cut, red sandstone, the north front will be of pressed brick, with red sandstone sills and water tables. The building will be three stories and a basement, each story to be fifteen feet high. The basement will have about eight large apartments, but it is not decided what the apartments will be used for.

The committee at first decided to use St. Louis pressed brick, but after considering the matter thoroughly, it was found that red sandstone would be almost as cheap and would be more substantial. Then again the money would be kept in Utah, instead of it being sent to St. Louis.

The contract for the basement has been let to Mr. Samuel Liddiard, who has had a force of men and teams at work for the last ten days. About four feet of gravel has been excavated.

Notice of Sale.

Notice is hereby given, that I, John O. Thomas, of Spanish Fork City, Utah, have this day sold, transferred and delivered to Geo. C. Thomas, of Spanish Fork City, Utah, all my cattle, together with my cattle brand.

JOHN O. THOMAS.

Dated at Spanish Fork City, Utah, April 13, 1891.

The R. G. W. will sell all round tickets at single fare on the occasion of President Harrison's visit to Salt Lake City. Tickets on sale May 8 and 9, good to return including the 11th.

MANY a man has been interested and charmed by the blush of a lovely woman without really knowing what the blush was. Here is a simple explanation by a scientific authority: A blush is a temporary erythema and color of the face, caused by the physiognomy, biologically by the preceptiveness of the sensorium when in a predicament of unquillibility from a sense of shame, anger, etc., eventuating in a paralysis of the vaso-motor nervous elements of the facial capillaries, which being divested of their elasticity are suffused with a compound nutritive circulating liquid emanating from an intimidated preordained.

A DISPATCH reporter, this morning, took a hurried glance through the extensive work shops and yards of the George W. Mickel Planing Mills, of this city, and found them enjoying a rush of work. Stacks of lumber and shingles of all kinds were seen in all parts of the yard, the majority of which stuff comes from Oregon. To give a person an idea of the amount of material handled by this prominent firm, we merely have to recite the fact that last week alone some \$3,000 was paid out by this company for freight on one shipment of lumber. Supt. Mickel may well pride himself upon the fact of possessing as complete and modern an establishment as can be found anywhere in the territory. Mr. Mickel is figuring on several important buildings, one of which is the offices and warehouses to be built at Nephi for the Wool Growers Association.
